WHAT WE OFFER

One supplier for every tape on the job.

Most sites buy tape from four different places and still end up short. We hold the whole range in one catalogue — from everyday masking tape to structural acrylic foam bonding — so a single purchase order covers the lot.

My Tape Store supplies adhesive tapes, fasteners and dispensing equipment across Australia. The range spans everyday consumables and specification-grade industrial products, held in stock and dispatched from Victoria to every state.

We sell to builders and fabricators, to schools and councils, to signwriters, boatbuilders, electricians and manufacturers. The products differ enormously; what does not change is that the right tape, chosen once, is cheaper than the wrong tape bought three times.

If you are unsure which product suits an application, tell us the substrates, the temperature range and whether the bond needs to be permanent. We will recommend from the range rather than sell you the most expensive option.

Pricing scales with quantity. For quantities beyond the published range, standing orders, or supply against a purchase order, contact us for a written quotation.

Volume pricing, applied automatically

Unit prices step down with quantity across most of the range — no negotiation and no account application required for standard orders.

Purchase orders welcome

Schools, councils, universities and government departments can order against a PO. Quotations issued on request for tender and procurement.

Cut and custom sizes

Many products can be supplied slit to width or cut to length. Ask when requesting a quotation.

Australian owned and stocked

Held in stock in Victoria and dispatched Australia-wide, with technical support from people who use the products.

WHERE OUR PRODUCTS ARE USED

Specified across twenty-six industries.

The same adhesive science solves very different problems. These are the sectors we currently supply — if yours is not listed, the application is usually still covered.

Aerospace & Defence	Airconditioning & Refrigeration	Building & Construction
Display & Signage	Electronics & Electrical	Flooring
Framing & Insulation	Glass & Glazing	HVAC & Plumbing
Joinery, Kitchen & Furniture	Manufacturing	Marine
Marking & Safety	Nameplates	Picture Framing
Pool & Spa	Printing	Roofing & Gutters
Sheathing & Moisture Management	Solar Energy	Schools & Libraries
Visual Arts & Entertainment	Telecommunications	Transport, Automotive & RV
Warehouse, Packaging & Logistics	Windows, Doors & Decking	

Specification support

Adhesion, temperature range, backing and thickness data available per product on request, including for tender documentation.

Samples

Sample lengths can be supplied for evaluation before committing to a quantity. Request with your enquiry.

Products by application.

Prices are not shown in this catalogue. Quantities vary widely between trades, so we quote against what you actually need — contact us with quantities for a written price.

Double-Sided Tapes

21 PRODUCTS

Bonding without visible fixings — mounting, laminating and permanent assembly.

Double-Sided PE Foam Tape

1.1mm thick x 09mm x 50m / White · 1.1mm thick x 12mm x 50m / White · 1.1mm thick x 18mm x 50m / White +13 more

ORDERING

Tell us the quantity. We'll quote it.

There is no price list in this catalogue on purpose. A school buying six rolls and a fabricator buying six cartons should not pay the same rate, and a published price serves neither.

To request a quotation, send the product names and the quantities you expect to use — per order or per year, whichever you know. If you are not certain which product suits the job, describe the application instead and we will specify it.

For procurement and tenders, we can supply written quotations, specification data and ABN details for supplier onboarding. Purchase orders are accepted from schools, councils, universities and government departments.

Request a quote

Send us the products and quantities, or describe the application and we will specify it for you.
